

2 Day City to City Great Ocean Road & Grampians

Itinerary

Day 1:

The Adelaide to Melbourne tour departs from Adelaide in the morning making it's way towards the National Heritage listed Grampians National Park to see the majestic mountain ranges and iconic views such as 'The Balconies'. Along the way we will stop for lunch (at own expense) around the township of Horsham. After grabbing a bite we continue our journey into the heart of Grampians, Halls Gap followed by a short walk down to MacKenzie Falls, the only all-year-round flowing waterway in the entire region. We spend the afternoon exploring this enchanting landscape and be amazed by the spectacular views, most notably Reeds and Boroka Lookout where you will have a perfect opportunity to capture your surroundings. Last stop of the day will be The Grampians National Park, home to Kangaroos, Wallabies, Koalas and many more fantastic animals. Staying overnight in Halls Gap, at one of our quality accommodation providers. (D)

Day 2:

Up early to start traveling the Great Ocean Road. First stop of the day is the London Bridge. Get on your walking shoes again to walk down the 72 steps at Loch Ard Gorge, and experience the limestone cliffs. The highlight of the day will be the Twelve Apostles. Do not hesitate to do the helicopter flight. We will stop in Apollo Bay for lunch and be stretching the legs. There will be a short stop to do some koala spotting before taking on that last part of the Great Ocean Road. Travel back to the first part of the Great Ocean Road, The Memorial Arch. Make the most of a great photo opportunity at some famed surf locations before we stop for a beach walk. After that, we will make our final journey into cosmopolitan Melbourne. (B)
